VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE CLAIMS:

Claims 3-6, 10, 12 and 18 have been amended as follows:

Claim 3. (amended) A device according to [any previous] claim 1, characterized in that the package has an even number of walls (3-6).

Claim 4. (amended) A device according to [any previous] claim 1, characterized in that at a package with four walls (3-6), two opposite (3, 5) of these walls have two locking tips (25, 26, 32, 33) connected with their internal wall portions (12, 14) and located in the cavities of adjoining walls (4, 6) for locking the walls having the locking tips in place by bearing against the inner side of the panel portions (21, 23) of the walls without such locking tips.

Claim 5. (amended) A device according to [any of the claims 1-3] claim 1, characterized in that the package forms a non-closed construction by having two walls only and a bottom.

Claim 6. (amended) A device according to [any previous] claim 1, characterized in that two locking tips (25, 26, 32, 33) received in a cavity of a wall (4, 6) and associated to two adjoining walls (3, 5) have their outer ends in contact with each other and the inner side of the external wall portion (17, 19) of said wall (4, 6), the cavity of which receives the locking tips.

Claim 10. (amended) A device according to [any of claims 7-9] claim 7, characterized in that the cover (43) forms a part of an attachment (46) placeable in the package.

Claim 12. (amended) A device according to [any of the claims 10 and 11] claim 10, characterized in that the attachment unit has a bottom portion (47) for placing against the bottom (2) of the package and a panel element (48) connecting the bottom portion and a cover portion of the

attachment, which panel element extends along and close to one of the walls of the package when the attachment is placed in the package.

Claim 18. (amended) A device according to [any of the claims 16 or 17] claim 16, characterized in that the bottom portion (47) of the attachment has one or more tips (49) for locking/holding engagement with corresponding recesses (60) in the package.
